Hi Kris,

I've been working on some of the things we talked about. If you have a chance, it would be helpful to get your updated feedback so I know whether I'm on the right track.

Attached are:

- 1) Revised evidence profile table for male repro for DEHP and DINP (I'll do more once we iron these out a bit)
- 2) The multi-phthalate document with most of the systematic review methods moved to the phthalate protocol (which is available here:

Ex. 6 Internal Web Address

Ex. 6 Internal Web Address and the new lit flow diagram, including two different tables with a breakdown of studies by outcome. I haven't made any other significant changes to the results section yet.

Thanks,
Beth
